

SANDY DRAINAGE IMPROVEMENT COMPANY

Board of Directors

Dale Shamp replaced the Maintenance Foreman, Paul Gaspar, as a Board member of Sandy Drainage District before he retired, in 1989. This populated site is among the closest to the Sandy Drainage pump station and it was only fields, the airport, and Reynolds Aluminum when Hyster Company, Technical Center in the 80's the name was changed to NACCO, moved into the area in 1967. "As one of our test tracks is only 16 feet above sea level we have always felt it beneficial to be represented for flood control."

Dale started working at NACCO in 1971, working as a Durability Test Driver and Mechanical Engineering Technician. Dale is now listed as Environmental/Occupational Safety and Health Officer and ISO Lead Auditor, Administrative Services Department, servicing three Portland area locations.
